

**EDUCATIONAL & PROFESSIONAL DEVELOPMENT**

**Scholarship Program**

Attracting bright new talent to the industry is at the forefront of the SSPI mission. Scholarships for deserving students interested in pursuing studies in satellite communications and satellite related fields provide tremendous opportunities. Sponsors have a scholarship branded in their name and the opportunity to participate in the selection of the scholarship winner. **Cost: US\$2,500.**

<b>Sponsorship Benefits</b>	<b>Value</b>
▶ <b>Scholarship.</b> A \$2,500 scholarship issued by SSPI to an undergraduate or graduate student selected by the Sponsor.	\$2,500
▶ <b>ADDED VALUE:</b> Acknowledgement as the scholarship sponsor on the SSPI Web site’s Education pages and through member communications, email promotion of the program to students, and the scholarship awards press release.	1,000
▶ Goodwill through association with SSPI’s professional development programs.	700
<b>Total Value</b>	<b>\$4,200</b>
Sponsorship Cost	\$2,500
<b>Premium: Value Over Cost</b>	<b>(68%) \$1,700</b>

**SSPI Education Fund**

SSPI’s annual scholarship program helps to offset the costs of higher education for students interested in pursuing satellite-related studies. The program dispenses an average of over \$40,000 per year to deserving students. Scholarship underwriters have included Intelsat, Loral Skynet, Access Intelligence, The SPACECONNECTION, SES Global, Space Systems/Loral, the PSSC Legacy Fund, the Perigard Fund, SSPI and its US chapters in the Mid-Atlantic, Northeast and Southern California. Scholarship sponsors receive recognition throughout the year as underwriters of these important financial awards.
